NOTES:

1. Make sure your son can set up and pack their cot all by themselves.
2. Make sure your son can stuff their sleeping bag back into the sleeping bag stuff sack all by themselves. Adults cannot be inside scout tents and therefore all scouts really need to be able to unpack, and pack, their own equipment by themselves.
3. There is NO access to electrical power.
4. Label everything with your last name on it.
5. Make sure your son has their footlocker combination memorized and can open their own lock without assistance. They need to practice this multiple times at home so we do not have to open their lock for them: or find a way to cut the lock off.
